

PPF & Film PREP Solution

Pre-cleaner & Degreaser

servFaces PPF & Film PREP Solution is a specially formulated pre-cleaner that is optimally designed for preparing surfaces for film application. The unique combination of high-quality raw materials allows for the effective removal of oils, greases, and light tar and tree resin stains without damaging the surface. Additionally, servFaces PPF & Film PREP Solution dries without leaving any residue, ensuring a clean and reliable base for subsequent film application.

Applications:

- Painted surfaces
- Gelcoat surfaces
- Glass surfaces
- Plastics (excluding acrylic glass and polycarbonate)
- A wide variety of metal surfaces

Features:

- Powerful cleaning action
- Leaves no streaks
- Pleasant scent

Use:

Spray servFaces PPF & Film PREP Solution evenly onto the surface and spread it with a microfiber cloth (e.g., servFaces Premium Buffing Towel) to ensure even coverage. Allow the pre-cleaner to sit briefly so that oils, greases, and other contaminants can be effectively removed. Then wipe the surface thoroughly with a fresh microfiber cloth, taking care to remove all residue to ensure a clean surface. Allow the surface to dry completely before proceeding directly to the film application.

Warning: Do not use on hot surfaces!

Application temperature:
+5°C to +40°C

Storage temperature:
+10°C to +25°C

pH-value:
not specified

Storage and shelf life:
At least 24 months at room temperature in tightly sealed original containers

Achtung: Produkt vor direkter Sonneneinstrahlung und Frost schützen!

Container sizes:

Item No.:	Container:
SF10500	750 ml
SF10500.1	5000 ml

Accessories:

servFaces Premium Buffing Towels, Special Coating Towels
