

# Rust & Dust EXX // RDE-N4010 //

Acid-free rim cleaner and flash rust remover

servFaces Rust & Dust EXX // RDE-N4010 // is a low-foaming, powerful, acid-free high-performance cleaner based on reactive active substances and high-performance surfactants. Flash rust, burned-in brake dust and other inorganic dirt is removed quickly, efficiently and gently. An optimum combination of ingredients guarantees a long application time, so that the reacting active substances can infiltrate and effectively remove even stubborn and burned-in particles. The dirt dissolving power is visible thanks to the color indicator (red color reaction). High-grade surfactants coat the dissolved dirt, which can then be simply and easily rinsed off. Heavily soiled areas will possibly need some rework with a sponge or brush to allow better cleaning.

## Areas of application:

- Painted and plastic surfaces on cars, trucks, and commercial vehicles
- Rims on cars and commercial vehicles
- Painted rims
- Aluminum rims, chrome rims, steel rims
- Plastic wheel caps

## Properties:

- Powerful
- pH-neutral
- Color indicator
- Suitable for wheels with TPMS (tire pressure monitoring system).

## Use:

Spray the surface with Rust & Dust EXX // RDE-N4010 // and let it work for 3 - 5 minutes. The product turns red during the application time. Then rinse with a high-pressure cleaner or a strong water jet. On extremely dirty areas, you can enhance the cleaning performance with a sponge, paintbrush or brush.

**Caution: High-gloss polished and other sensitive rims/surfaces should be tested for compatibility first!**

**Caution: Do not apply the product in direct sunlight and do not let it dry! Check for suitability and compatibility before use.**
