

Motor Care & Clean

Care and protection emulsion with cleaning effects

Motor Care & Clean is a care and protection emulsion with cleaning effects which provides for an even deep black finish on a variety of plastic and rubber surfaces in the engine bay. The product restores lost moisture to the plastic surface and provides effective protection from discoloration or crack formation. The product creates a perfect semi-gloss finish and is suitable especially for modern plastic and rubber surfaces in the engine bay. It has dust repellent and antistatic effects, and protects plastic from repeated contamination, since the surface is not sticky.

Areas of application:

Plastic and rubber surfaces in the engine bay

Properties:

- UV-protection
- Antistatic surface
- Smooth surface feel
- Enhances the color
- Simple and quick application
- Minimal consumption
- Solvent-free
- Silicone-free

Use:

Application on dry surfaces: Spray the product sparingly on a previously cleaned surface. Even it out with a sponge and leave to dry!

Application on wet surfaces: Spray the product onto previously cleaned but still wet parts and leave to dry!

Caution: Do not apply the product in direct sunlight and do not let it dry!

Lifetime:

Motor Care & Clean provides protection for approx. 6 - 12 weeks (The product can last up to 6 months always depending on use and cleaning interval!)

Application temperature: +5 °C to +40 °C	Storage temperature: +10 °C to +25 °C	Consumption: 8 - 10 ml per m ²	pH: 5.0 - 6.0
--	---	---	-------------------------

Storage and shelf life:

At least 18 months at ambient temperature in tightly sealed original container

Caution: Protect the product from direct sunlight and freezing temperatures!

Note:

Emulsions and coating products need a certain period of time to bind to the surface and fully cure after application. Therefore, please check the curing time of individual products. Only this can guarantee that the product provides the desired benefits. Direct exposure of the surface to water or cleaning agents after application can significantly reduce the performance of the product properties.

**General information about the product:**

Factors such as preliminary cleaning, application temperature, curing time, etc., can influence the product's effectiveness and lifetime. Therefore, fluctuations of product properties cannot be excluded.

Container sizes:

Art. No.:	Container:
SF10269	250 ml
SF10269.1	750 ml
SF10269.2	5 Liters

Accessories:

Premium Applicator Sponge, Special Coating Towels, Premium Buffing Towels

Note after use:

Surfaces treated with care products should principally always be cleaned as gently as possible to avoid damaging or even removing the product properties. Avoid using strong cleaning agents with high pH or a large content of solvents. We therefore recommend cleaning with servFaces Allround Cleaner (ready-to-use)
