

HSC Ultra Fine Cut Polishing Sponge

Polishing sponge for orbital polishers and rotary polishers

The HSC – Ultra Fine Cut polishing sponge is extremely stable in shape due to its special foam structure and retains its polishing performance even during long polishing times. This makes the polishing sponge very durable, efficient and sustainable. It is especially suitable for finishing work on new and pre-treated painted surfaces. It creates a very beautiful finish with a high level of gloss. Ideal for removing light holograms after paint preparation work.
