

Pre-Cut

Micro fine abrasive paste

servFaces Pre-Cut is a modern, highly efficient, silicone-free abrasive paste for quick reconditioning of heavily weathered paintwork and the removal of deep scratches. The polish effectively removes paint mist and sanding from grit size P1000. Due to the highly abrasive and very uniform grit, servFaces Pre-Cut produces an extremely high cut with a medium gloss level. With servFaces Pre-Cut you can polish for an extremely long time with little dust and spattering without the polish burning in. servFaces Pre-Cut is very easy to wipe off with the Premium Buffing Towel and is excellent for all types of paintwork – both soft and scratch-resistant.

Areas of application:

Suitable for paints on cars, motorcycles, commercial vehicles, etc.

Properties:

Grinding grade: 12.0

Gloss grade: 4.0

Use:

Apply servFaces Pre-Cut evenly to the surface to be worked on and polish using a rotary polishing machine with a servFaces lambskin polishing pad (for grinding from grit size P1000) or a servFaces heavy cut polishing sponge (for grinding from grit size P1500) in a crosswise motion at medium speed and medium pressure. For processing with an eccentric polishing machine, please use a servFaces heavy cut polishing sponge. To remove polish residues, it is best to use a microfiber cloth such as the servFaces Premium Buffing Towel. The optimum surface is achieved by repolishing with servFaces Medium Cut and Fine Cut.

Caution: Do not apply the product in direct sunlight and do not let it dry!

Note:

Shake well before use. Check for suitability and compatibility before use. Do not apply to hot surfaces and protect from excessive heat and frost.

Application temperature: +10°C to +40°C	Storage temperature: +10 °C to 25°C	Consumption: 6 to 10 ml per m ²	pH: Not determined
---------------------------------------------------	-----------------------------------------------	------------------------------------------------------	------------------------------

Storage and shelf life:

At least 12 months at room temperature in tightly sealed original container.

Protect from direct sunlight and freezing temperatures!

Container sizes:

Art. No.:	Container:
SF10420	250 ml
SF10420.1	1000 ml

Accessories:

HSC Heavy Cut Polishing Sponge, polishing sponge V1, polishing sponge V2, polishing sponge RT/V1, polishing sponge RT/V2, lambskin polishing pad V1, lambskin polishing pad V2, lambskin polishing pad V3
